THE FIRE AND POLICE TELEGRAPH. Annual Report of the Superintendent of the Fire and Police Telegraph.

IMPROVEMENTS MADE IN THE FIRE ALARM SERVICE-ITS EXTENSION TO THE SUBURBS RECOMMENDED-THE TELEGRAPH VERSUSTHE TELEPHONE FOR POLICE SERVICE-A STRONG RECOMMENDATION IN FAVOR OF UNDER-GROUND CABLES.

Mr. H. R. Miles, superintendent of the District received back from the exposition twice as telegraph and telephone service, has submitted much material as it sent there. The hundreds to the District Commissioners his report of the of boxes shipped from New Orleans are being transactions of his department during the fiscal opened and their contents are being disposed year ending June 30th last. He states that 46 of as rapidly as possible. Already many denew fire alarm signal boxes, of the latest im- partments are embarrassed by lack of space provements in the Gamewell system, were for the effective display of their collections. and all the circuits considerably enlarged and leans and have been returned bear memorials improved. These additions to the service, of the exposition in the form of spots of tar. amounting to 53 per cent, were accomplished at a total cost of \$7,953.65. Nearly sixty miles of wire were up during the year. He down through interstices upon everything that suggests that Gamewell electro-mechanical gong-strikers, such as has been placed in No. 7 engine-house, should be introduced in every engine-house in the District. There were 230 alarms of fire transmitted through the office during the year. Thirty alarms occurred engine-house, should be introduced in 230 alarms of fire transmitted through the office during the year. Thirty alarms occurred between midnight and 6 o'clock a. m., 47 between 6 a. m. and noon, 72 between noon and 6 p. m., and 67 between 6 p. m. and midnight. The total number of hours during which the fire department was in service or absent from the houses in active work fighting fire was 198 20-60, or, counting eight hours for a day's work, 24 days 6 hours and 20 minutes. The greatest number of alarms from any single box was 7, struck from box 131, corner 9th and F streets. There were 6 from box 213, corner of between midnight and 6 o'clock a. m., 47 be-7th and R streets northwest, and 5 each from boxes 14 and 137, and 4 each from boxes 123, 124, 151, 27, 32, 47, 51, 62 and 731. There were 49 boxes from which no alarm was received. THE TELEPHONE SERVICE.

Including the police patrol service, the report says the District has in constant use 117 sets of telephones, all of which are rented by the year from the Chesapeake and Potomac telephone company. During the year 151,071 recorded messages, pertaining to police busi-ness, were transmitted over the wires by telephone to and from police headquarters-an increase of 31,658 over the previous year. As not more than one-half of the messages are recorded it is safe, the report says, to assume that ot less than 300,000 messages were transmitted during the year.
"The telephone," Mr. Miles says, "has become

necessity in all the departments of the District government, answering far better for most purposes than the telegraph. But for police business a good printing telegraph would, in my judgment, be far better, for the reason that accurate printed copies at both ends of the line would be secured, and confidential communiations could be sent without any danger of leakage or disclosure en route.' THE PATROL SYSTEM.

"The patrol telegraph and telephone system," the report says, "first introduced in the fifth police precinct, has worked in a very satisfactory manner. During February last five of the sentry-box stations—of the twenty—in that pre-cinct were removed to and put up in the sev-enth precinct, together with ten new ones purchased for the same precinct, so that the fifth and seventh precincts each have fifteen sentry stations, all of which, in both precincts, amounting to \$7,600, has been paid for from funds appropriated for that specific purpose. The patrol telegraph and telephone system for police duty has become a necessity, and should, SEE Post and Republican for M. Kaufman's ONE OF THE SECRETS of our success (we will possible into and throughout all the several

> the 'Waving Cable' for trial use by this department, and that so far as these cables had then been tried they had been satisfactory. "I now supplement that report by the further statement that we have been using the same cables continuously since my last report for both fire-alarm telegraph and telephone busi-ness with the best possible results. In fact, we have had no trouble in the use of the conductors, nor has there been any expense incurred in keeping the cables in order. I see no practi-cal reason why all the wires used for fire-alarm telegraph, as well as for general telephone pur-poses, should not be put underground—it suit-able and first-class cables be selected for the

INDERGROUND CABLES.

"I am aware that it will cost a large sum of money to put all the wires of the telegraph and telephone service of the District underground, and would not recommend that it should all be done in one, or even in two or three years. But I am so fully satisfied of the practicability, as well as of the desirability of having them put in underground cables at an early date, that I consider it my duty to recommend that an appropriation be made of \$25,000 to begin the work, and that all the wires now in the trunk lines running along it street between 5th and lines running along D street, between 5th and 13th streets; along 13th street, from D to L; along L from 13th to 17th, and along 17th street from L to M streets northwest, including such loops running out from the main lines as may be necessary to reach the signal boyes and may be necessary to reach the signal boxes and other instruments within two or three squares on either side of the proposed route. The laying of good cables on the route proposed," the report continues, "would be a good beginning in the right direction—would re-

a fire-alarm station as soon as the revenues of

the District will warrant the expense.

move from the heart of the city a long line of poles, which, if not dispensed with in the way proposed, will soon have to be replaced by new and larger poles—not a desirable thing to do it cables can be substituted. cables can be substituted." The report mentions the success obtained in using No. 14 hard drawn copper wire—a new thing in the way of telegraph wire. The ex-penditures of the office during the year, including salaries, amounted to \$20,386.36. THE FIRE ALARM SERVICE IN THE SUBURBS "The rapid growth of the suburban villages immediately surrounding the city," the report says, "suggests the necessity of extending the fire alarm telegraph to Uniontown, Mount Pleasant, Le Droit Park, and to a point on 7th

street road near Howard University. Each of the places named should, in my judgment, have

for the employment of one additional repair-man and one additional laborer, as our present force is too small for the prompt dispatch of necessary repairs and other labors incident to NATIONAL THEATER.—Roland Reed, who since his last appearance in Washington sev-Monday evening, in a piece called "Humbug," by Fred. A RICH GIFT FROM JAPAN. In one of the rooms at the museum devoted to the preparation of exhibits a splendid collection presented by the government of Japan, which has just been received, is being un-packed. This collection is of the choicest character, and presents an epitome of the arts and industries of the land of the Mikado. It will probably be kept together for some time at least, and displayed in a part of the museum where it will be conspicuous. The collection of pottery, representing the works of different districts of Japan, is especially rich and interesting. It includes not only some of the richest specimens of the skill of the Japanese potter, but exhibits illustrations of all the stages of the process. There are also exhibits of lacquer and of all the seamler were and of all the seamler with the stages. ware, and of all the peculiar arts in which the Mikado's subjects excel. Articles of use in ornament of silver, brass and other metals manifest a rare skill and nicety of workman-ship. Many of the articles would tempt a curio hunter to deeds of desperation. The collection embraces also a large number of miniature models illustrating the modes followed by Japanese fishermen and a very interesting colection of water-color sketches showing how different kinds of fish are caught and how wild nimals are hunted.

Arraigned on a Charge of Murder. THE ITALIAN ANTONIO NARDELLO PLEADS NOT

GUILTY. This morning in the Criminal Court, Judge MacArthur, the Italian, Antonio Nardello, alias Michael Ross, alias Frank Ross, indicted for the murder of Carunderstand the English language, Col. Frank "In my last annual report," Mr. Miles contin- Y. Mancossis was sworn as interpreter, and the Cable company had put down certain lines of to the prisoner, his plea of not guilty was entered. He stated that a lawyer had been se-cured for him, but he did not now know his During the reading of the indictment the prisoner several times attempted to talk, evidently trying to repeat his story that others inflicted the wounds while he was present, but he was checked by the court.

To the Editor of THE EVENING STAR: A correspondent in yesterday's issue demands lower prices of admission to the theaters in this city, and says one has closed for want of patronage. The fact is, the prices are lower in Washington than in any city in the U.S. and fifty per cent cheaper than in New York city. The admission to the orchestra circle in all the theaters here is just the same as before the war, twenty-five years ago. As to the claim that the summer prices for light opera can be main-tained, the fact is the companies cannot be had managers say, was owing to a breach of con-tract and a bad performance, though they of

REDUCED RATES FOR VOTERS VIA PENNSYL-VANIA RAILROAD.—The Democratic Associa-Washington, through Mr. Lawrence Gardner, has perfected arrangements with the Pennsylvania railroad for reduced rate excursion tickets for Ohio voters going home to vote. These tickets will be issued only on certificates signed by Mr. Gardner, entitling the holder, or any member of their family, to reduced rates from October 9th to 12th inclusive, tickets good to return until the 16th inclusive. Particuiar attention is called to voters, availing them-selves of such rates, to the fast schedule of the Pennsylvania railroad. The facilities and accommodations offered by this line guarantees a trip replete with pleasure. The scenery at this season of the year is grand. Before selecting route call upon the agents of the company in
